

NOCIL LIMITED

# ENERGY POLICY

ARVIND MAFATLAL GROUP  
The ethics of excellence

NOCIL LTD is committed to continual improvement of energy performance in all our activities including products and its operations by the way of :

- ❖ Utilizing energy efficiently through effective operational and maintenance practices.
- ❖ Continual up-gradation of process with energy efficient technologies to optimise energy consumption.
- ❖ Encouraging use of non-conventional energy.
- ❖ Complying applicable legal and other requirements.
- ❖ Training and developing employees, contractors & relevant interested parties for energy conservation.
- ❖ Supporting the purchase of energy efficient and cost effective products and services and designs for energy performance improvement.
- ❖ Ensuring availability of information and of necessary resources to achieve energy objective and targets.
- ❖ Setting up energy management team to monitor energy management programme & energy performance with regular audits.
- ❖ Improve energy efficiency while maintaining a safe and comfortable work environment.
- ❖ Revise the energy policy when needed and communicate to all our personnel.
